## Local and General

Born on July 20th to Mr. and Mrs. W. Gilson, a son.

Born to Mr. and Mrs. Tom Chalmers on July 21st, a son.

Mrs. J. Belshaw and children left Saturday to spend a couple of weeks at Sylvan Lake.

Over a thousand people were counted on Sylvan Lake's downtown pier on Sunday last.

Mr. and Mrs. R. T. Amery and son Bill, returned from the States on Saturday.

Crossfield's 6 representatives to Fairweather camp returned home on Tuesday. The girls all report a wonderful time.

Miss Phyllis Ainscough was a visitor to the General Hospital, Calgary, on Friday and came out minus her tonsils.

Mrs. G. A. Stiles and son of Edmonton were visitors last week at the home of the former's parents, Mr. and Mrs. J. P. Methers.

Miss Marion and Marjorie Huston have returned home after an enjoyable holiday spent with friends at Bentley, Alberta.

Mr. and Mrs. C. H. McMillan and family and Gordon and Maxine Reeves left last Saturday on a trip to the coast and western points in the States.

Rev. and Mrs. S. R. Hunt and Harold and Gwendolyn left Tuesday for a month's holidays at Revelstoke B. C.

Hanging on the clothes line at the Belshaw residence is the skin of a monkey, which was sent Kenneth from a pen pal in Gold Coast, West Africa. Monday last, Jim says if that monkey does not come over and claim its hide pretty soon, it will be cremated.

## Social Credit Meeting

Mr. C. E. Johnson, M. P., for the Federal Constituency of Bow River, will address a meeting in the U.F.A. Hall, Crossfield on Monday evening, August 7th. Everybody welcome.

## Still Taller Wheat

To date the tallest wheat in the district is 62 inches high, a sample of which is in the Chronicle Office, and was brought to us from G. Lind, of Hall's farm. This wheat was sown by G. R. Jones. A little more rain will help to fill the tops and good crops will be harvested in the entire district.

## UNITED CHURCH NOTES.

Mr. Hunt and family left early Tuesday morning for Revelstoke where Mr. Hunt will supply the pulpit of the United Church for a month. Mr. McClelland, of Calgary, will preach at Rodney and Crossfield on July 31st and at Madden and Crossfield on August 6th.

Services are withdrawn for August 13th and 20th.

Mr. Hunt will be home for the services at Rodney, Tan-y-Bryn and Crossfield on August 27th.

The Sunday School will meet July 31st and close for the month of August.

## Earns Promotion

IAN WARREN, who on July 1st becomes Overseas Passenger Manager, Canadian Pacific Railway, succeeding H. W. Brodie who retires on June 30th after more than 44 years service with the Company.

Mr. Warren after experience in the engineering and construction departments joined the passenger department in 1924 and has steadily worked his way up to his present important position.

### Cremona Notes

Having no rain for two weeks after all the wet we did have, has caused the ground to bake hard in spots, and some of the grain is suffering, but in general, the crops are very good in this district, having had no hail to date.

We hear that our councillor is opening up the mile running west of town, making it quite a lot shorter, going to and fro across the river.

Harry Earl and son produced and convinced the public that he could tell and confirm his fish stories, when he brought to town a 13-lb. pike, over 3 feet long, which they got in the local stream.

Fred May met with a painful accident when unloading gas barrels. He caught three of his fingers and got them badly jammed, and was taken to the Didsbury hospital.

Rumors are floating that wedding bells are going to ring in the near future, when one of our local bachelors is going to wed a pretty girl from England. Just wait and see.

It is understood that Cremona is going to have a two room school this summer with a full basement, so it can be used for the third if necessary.

### Madden Notes

Messrs. Angus Walsh, Walter Havens, Jess Havens, Roy and Joe Gallelli spent a few days vacationing in Banff last week.

Mrs. J. R. Banta entertained a number of the Madden ladies at tea in honour of her relatives from the U.S.A. last Tuesday afternoon.

Mr. Fred Ingham returned home Saturday with Mr. and Mrs. Ken McRae.

Miss Isabel Dawson spent a couple of days in Calgary last week.

Mr. and Mrs. Lloyd Havens and Mr. and Mrs. Wm. Murdoch spent the week-end in Turner Valley.

Miss Ane Aaskow is at home for two weeks vacation from Gas and Oil Products where she is employed.

Friends of Bill Tidball are sorry that he is unable to be at his usual work, due to a recent fall.

Mr. and Mrs. H. E. Davis and Donna Marie visited at the home of Mr. and Mrs. F. Ingham on Sunday.

Many of the Madden residents were Sunday visitors at Bowness

### Water Valley Notes.

from our own Correspondent

Mrs. Henry Stone has been renewing friendships and picking strawberries in the Water Valley district for the past week. How goes the batching, Henry?

A meeting of the ratepayers of Bituma S.D. 2856 was held during the week protesting the re-engagement of the teacher. Jack Robertson of the Board for the large unit was present and got an earful of complaints.

We saw Les Ward scouring the community looking for his rope on Wednesday. He said there was a horse on the end of the rope when last seen.

Miss Dorothy Meazer and a girl friend, both from Calgary, are week ending at the Albert Sailer home in Water Valley.

We saw Lew Matice and the rest of the community in Sailer's Store speculating on who Six Gun Kelly was or is.

The S.C. meeting in Water Valley on Saturday the 22nd. was low in attendance, only seventeen being present. Discussion centered on taxation and schools after which everyone had lunch and went bye bye.

The S.C. bonus boots are much in evidence these days, as there are several new pair.

One local business man reports receiving a two-hundred dollar voucher for lumber. Six bucks bonus. Pretty nifty boots, what?

The local road committee man, John Nafziger, deserves credit for the good work done and the co operative spirit shown.

Clifford Jordan, who was put in hospital after being hit with a bat, accidentally, at the Bituma picnic, was brought home Saturday by Sam May. Sam says, "He's alright now."

Crops in this district are very backward, as too much moisture followed by hot, dry weather, baked the clay land and there is now much need of more rain.

Sure tough on the news hound when everyone behaves themselves. Won't someone please beat up his wife or steal a cow or create scandal. Please. Please

We hear that Charles Evans Sr., who has been in the Belcher hospital with rheumatism for some time, is progressing favourably.

By listening one would form the opinion that the whole community were going to the Dog Pound Stampede Wednesday 26

We see where some guy in Russia has a process to extract forty millions in gold from every cubic mile of the ocean. When they start buying that in big holes like the Kentucky one, we can all get rich digging holes, some Saturday afternoon.

### Goozles

A certain young lady ought to learn to put herself out a little, even if it is only to say, thank you.

Jean and Claire say they had fairweather at Fairweather last week.

Three young ladies were seen posing on the War Memorial last week. Let us know how it turned out, Mickey.

We wonder why Maxine liked sitting on the beach at Sylvan alone—or was she alone?

Brown: "You don't look well. Jack. What's the matter with you?"

McPhail: "I've just been down to see the doctor, and he is going to take away my appendix."

Brown: "Take your appendix away! Don't let him do it! Put it in your wife's name and then they can't touch it."

Smith: "My wife asked me take our old cat off somewhere and lose it. So I put it in a basket and tramped out into the country for about eight miles."

Jones: "Did you lose the cat?"

Smith: "Lose it! If I hadn't followed it, I'd never got back home."

At three years of age we love our mothers; at six, our fathers; at ten, holidays; at sixteen, clothes; at twenty, our sweethearts; at twenty-five, our wives; at forty, our children; at sixty, ourselves. And thus the world goes round and round.

How are you fixed for gasoline, Warren?

While mosquitos are the worst in years, one truck driver has taken a contract to deliver a 2-ton truckload to the Hutterites at Rockyford, and Six-Gun says he kills everyone that comes near and he doesn't understand why they don't get wise and leave him alone. Roy Oldfield and family are moving to Balzac before school begins, and a farewell will be given before they leave, the date to be announced later. Elmer Foster is purchasing a new car. Elaine says mother is busy these days, saying good-bye. The saskatoons are drying up for want of rain, but the raspberries are fine this year. The saw mills are getting lumber in shape for the harvest needs. The Water Valley slogan is "Support the Home Industries". There have been reports of fish wardens, but few fish. Slab City Milling Company is saarting a community swimming pool, and our instructor, Harry Foster, is also acting as life guard, having performed his first deed of bravery on the 23rd, when he rescued two ladies on a raft, to the discomfort of his loving wife. Bill Franks, Roy Oldfield and Glen MacNicol were seen in Calgary on Monday. The Dog Pound picnic was well attended by our Water Valley crowd on Wednesday. Corporal Cameron was seen travelling west on Monday, but we hope things are not too tough.

**The World of Wheat.**

By H. G. L. Strange

"Which variety of wheat, of oats, or of barley, shall I use?"

This is a question being asked today by many farmers, and all because of the profusion of good varieties which have recently been made available to the farmers by the professional plant breeders.

The truth is that there is now no longer any one variety that is suitable, such as Marquis used to be, for all districts alike. Instead there are now particular varieties better suited than others for certain districts.

How can farmers tell which is the best variety for their own district?

In the first place a good deal of authoritative advice is given, but there is a way by which farmers can observe for themselves. At every Governmental Experimental Farm Illustration Station, University and School of Agriculture, plots of many varieties are growing. Also at over 900 points throughout the West, the "Crop Testing Plan" has installed, through the medium of the local elevator agents, a Demonstration Plot, which consists of eight recommended varieties of wheat, six of oats and six of barley. Farmers and others who visit these plots can, therefore, see with their own eyes which varieties are best suited to their own districts.

**Around Field And Barn.**

By E. M. C.

It is not safe to be too sure about any particular practise or theory in agriculture and its many branches.

With the possible exception of medicine there is none in which one hears it is so often said, "That used to be the way but not now." From hogs and hens, to worms and weeds, ideas and methods are always changing. That is all to the good of course, but it is sometimes alarming to suddenly learn that you have been doing the wrong thing on expert advice for years.

Grass, the great healer, like salve on a sore, a weed killer, and soil builder—you can still get Brome seed at the Rosebud M.D.

I have been told that about 14 carloads of screenings were shipped out of a nearby village in 1938.

Don't you always notice the farm where the road has been

neatly mowed?—and the others, then someone says, "who lives there?"
